

Our Story

Warrior was founded in 1978 and began manufacturing structural support systems for the grain handling industry including conveyor trusses, support towers and stair platform systems. Early in its history, Warrior also manufactured tractor quick hitches under the Warrior brand name. Warrior continues to sell quick hitches to Original Equipment Manufacturers (OEMs) and through a nationwide network of dealers.

After new ownership acquired the company in 2002, Warrior expanded to serve additional industries including mining, food processing and the ethanol industry. Warrior also made a substantial investment in equipment to manufacture structural steel for the construction industry. Warrior also sought and received the AISC certification from the American Institute of Steel Construction.

For many years, Warrior operated out of a 25,000 square foot facility in Redwood Falls, Minnesota. Due to rapid growth, Warrior built a state-of-the-art facility in Hutchinson, Minnesota in 2007. In 2012, Warrior acquired Micada, a company manufacturing hopper cones for on-farm grain storage. In 2016 the company began manufacturing material handling equipment in a facility in Omaha, Nebraska. Warrior now has over 200,000 square feet of manufacturing space in four locations throughout the Midwest.

Warrior provides complete bulk weighing systems including hoppers, controls, hydraulics, support structure, platforms, access stairways, fall safe, control room, loadout spout, cleaner, sampler, custom engineering and start-up and training. Warrior Bulk Weigh Systems are NTEP certified and are the most **heavy duty, industrial grade**, systems provided in the industry.

BULK WEIGH SYSTEMS

“Over the Track”

“Beside the Track”

Factory assembled unit that arrives on the jobsite ready to be installed

Lower support structure with access stairway, sampler, control room and loadout spout.

Loadout spout

Control rooms

Options

- Several controllers to choose from
- Car readers
- Urethane, Kryptane, or Ceramic tile lining
- Automatic samplers
- Material Handling equipment
- Fall protection
- Towers and Catwalks
