

Our Story

Warrior was founded in 1978 and began manufacturing structural support systems for the grain handling industry including conveyor trusses, support towers, and stair platform systems. After new ownership acquired the company in 2002, Warrior expanded to serve additional industries including feed, mining, food processing, sand and gravel, refining, fertilizer, water treatment, biodiesel and ethanol. Warrior also made a substantial investment in equipment to fabricate structural steel for the construction industry. Warrior received AISC certification from the American Institute of Steel Construction in 2011 as well as CWB certification from the Canadian Welding Bureau that same year. In 2012 Warrior expanded its product line to include bulk weigh systems and hopper cones. In 2016 Warrior again expanded its product line to include material handling equipment.

Located in Hutchinson, Minnesota Warrior manufactures in a state of the art 150,000 square foot facility. Our clients have come to expect Warrior's commitment to providing the highest quality products that are efficiently produced to meet our scheduled demand.

COMPLETE TEMPORARY STORAGE SYSTEMS

ROUND BUNKERS

PILE DIAMETER	WALL HEIGHT	EST. BUSHELS
260'	4'	1,000,000
260'	6'	1,100,000
305'	4'	1,500,000
305'	6'	1,700,000
320'	4'	1,700,000
320'	6'	1,900,000
350'	4'	2,300,000
350'	6'	2,500,000
360'	4'	2,500,000
360'	6'	2,700,000

- * EST. ANGLE OF REPOSE 23°
- * PILE DIAMETER IS AT BASE OF PILE
- * DIAMETER AND WALL HEIGHT IN FT
- * CALCULATIONS ARE FOR CORN

TEMPORARY STORAGE
SYSTEMS

www.warriormfgllc.com

Warrior Temporary Storage Systems use high quality components that ensure functional reliability in operation for temporary storage year after year. Warrior offers flexibility to change these components and control systems in order to fulfil customer requirements. **Service accessibility** is key and components are **modularized** to make installation fast and efficient. The center tower filling system can be just a heavy duty tower structure only or a complete center air tower system.

TEMPORARY STORAGE SYSTEMS

Complete temporary storage systems consisting of center air tower, conveyor trusses, support towers, Material handling, tarp and aeration tubing

Completed installation

Operational system

Oval Bunkers

TOWER SKIRT WINCH

TARP RING WINCH

CENTER AERATION AND WIND SENSOR CONTROLS

CONTROL PANEL for tarp and skirts

HEAVY DUTY GALVANIZED WALL PANELS. Perforated corrugated panels provide excellent strength and positive air flow for optimal storage life. Hot dipped 3"x3"x3/16" support angles are included.

Options

4' and 6' Standard Wall Heights
Tarps
Material Handling
Towers and Catwalks
Oval Shaped Bunkers
Aeration Tubing and Fans
Portable Stackers
